

## Electronic Data Interchange

The Health Insurance Portability and Accountability Act (HIPAA) requires compliance with the Electronic Data Interchange (EDI) standards. Providers should follow the HIPAA transaction and code set requirements as found in the National Electronic Data Interchange Transaction Set Implementation Guides. *The following provides details from the Implementation Guides to accommodate NPI within the 837 and 835 EDI transactions. Failure to comply with the 837 standards will result in a rejection of the claim.*

### 837 Health Care Claim Submissions

PROFESSIONAL	
Loop	Segments/Data Elements
Billing Provider <i>Loop 2010aa</i>	NPI: NM108 = XX and NM109 = NPI Tax ID: REF01 = EI and REF02 = Tax ID Legacy ID not mandated for use
