The Family Café Hosts 9th Annual Conference for the Disability Community

WellCare sponsors healthcare summit and breakfast for 10,000 at conference

Tampa, Fla.—(June 5, 2007) --- The Family Café is hosting its 9th Annual Family Café Conference for Floridians with disabilities and their families at the Rosen Shingle Creek Conference Center in Orlando on June 8-10, 2007. The Family Café is a dynamic, statewide event that provides an information-sharing forum for the thousands of Floridians with disabilities and their families.

WellCare Health Plans, Inc., (NYSE:WCG) a Florida-based health plan offering government-sponsored health insurance programs, is hosting a health care summit and breakfast for the 10,000 conference attendees. Leadership from both Agency for Health Care Administration (ACHA) and WellCare will be discussing advances in providing services to the disability community. On the premise that well-informed members can make better decisions to enhance their quality of life, WellCare collaborates with local government entities and community groups, like The Family Café, to provide information and services to individuals with disabilities, their families and others with complex health issues.

“In addition to providing access to local resources and accurate information to individuals with disabilities and their families, the weekend is an opportunity for collaboration, advocacy, friendship and empowerment in a family-centered environment,” said Lori Fahey, president and chief executive officer of The Family Café. “We were delighted to partner with WellCare as we both emphasize putting the family first and we look forward to forging a long-term relationship with WellCare.”

“Serving the disability community is complex and requires solutions that allow an individual with a disability to live the fullest life he or she chooses,” said Tom Summerill, chief operating officer for WellCare of Florida. “Events like the annual Family Café conference provide an ideal opportunity to address the unique healthcare needs of this community.”

About the Family Café: The Family Café began in 1998 as an attempt to respond to a specific need in the disability community: the need for information. In response, we at the Family Café created an Annual Conference to serve as a clearinghouse of information. The conference provides a unique environment, where families could connect with peers, commercial service providers, and public entities to find out what services were available to them, which best met

their needs, and how to go about securing those services. For more information, see www.familycafe.net
