

New in 2023

Wellcare Medicare Advantage plan members can visit in-network providers in 27 states! This means you have access to more than 1 million Wellcare providers*.

If you travel or spend part of the year at another location, your provider may be in network.

If your daily activities take you across state lines, providers in nearby states may be in network.

You do not need to call Wellcare or get a referral before seeing a provider outside of your home area.

Wellcare Medicare Advantage plan members can see any participating provider at the in-network cost share, even if that provider is outside of the member's home area. Coverage, cost share, and benefits all stay the same.

We have also changed our directory so you can find care across state lines. Our "Find a Provider" tool makes it easy. Visit [wellcarefindaprovider.com](https://www.wellcarefindaprovider.com). Pick your state, enter your search location, and choose the options that match your needs. The search tool will list all providers that fit your criteria. You can then filter the results. You can also view providers outside of the state or zip code that you initially entered.

Wellcare has worked hard to build a large network in 27 states. With so many providers, we want you to be able to get the care you need, when you need it.

**Some providers may opt out. Limited to Wellcare and not available across all Centene plans (note: specifically referring to Wellcare by Allwell, and Wellcare by Health Net, and Wellcare by Fidelis)*
