Pharmacy Benefits Highlights

MAPD

People across America trust us for coverage that goes beyond basic Medicare. Our MAPD plans offer comprehensive coverage of the prescription medications members need to support their total well-being and help them live better, healthier lives.

The Part D benefit consists of three phases: annual deductible, initial coverage, and catastrophic coverage. In addition, members' out-of-pocket prescription costs will not exceed $2,400 with the option to pay in the form of monthly payments over the course of the plan year.

Pharmacy benefits focused on quality, affordability, and member access.

	Part D Benefit Highlight	Plans
Quality & Affordability	Tier-Specific Deductible[a]	All Plans
	$0 Copay for Tier 1 Drugs at **Preferred** Pharmacies	All Plans
	$0 Copay for Tier 6 Select Care Drugs at **Preferred** and **Standard** Pharmacies	All Plans
