2027

Part D Coverage of Insulin and Biosimilars

MAPD and PDP

In 2027, covered insulin remains affordable. Medicare Part D limits the member cost-sharing for covered insulin products to the lowest of three limits: $35 copay per one-month supply, or 25% of the drug's contracted price, or 25% of the Medicare-negotiated maximum Fair Price (MFP). The insulin cost-share limit represents a maximum member cost. Depending on the insulin product, plan, and negotiated pricing, members may pay less. This protection applies regardless of formulary tier, deductible status, or benefit phase, helping ensure consistent and predictable insulin costs for our members.

Insulins and Biosimilars: What You Need to Know

Some insulin products and other biologic medications may be available as biosimilars. Biosimilars offer members additional treatment options and may help improve affordability.

Covered Insulin Products	Insulin Category
Merilog SoloStar 100 units/mL pen injector	Rapid-Acting; Biosimilar Product
Merilog 100 units/mL vial	Rapid-Acting; Biosimilar Product
Kirsty Pen 100 units/mL pen injector	Rapid-Acting; Biosimilar Product
Kirsty 100 units/mL vial	Rapid-Acting; Biosimilar Product
Humulin R KwikPen 500 units/mL pen injector	Regular-/Short-Acting (Concentrated)
Novolin R FlexPen 100 units/mL pen injector	Regular-/Short-Acting
Novolin R 100 units/mL vial	Regular-/Short-Acting
Novolin N FlexPen 100 units/mL pen injector	Intermediate-Acting
Novolin N 100 units/mL vial	Intermediate-Acting
Lantus SoloStar 100 units/mL pen injector	Long-Acting
Lantus 100 units/mL vial	Long-Acting
Insulin Glargine Max SoloStar 300 units/mL pen injector	Long-Acting
Insulin Glargine SoloStar 300 units/mL pen injector	Long-Acting
Lantus SoloStar 100 units/mL pen injector	Long-Acting
Lantus 100 units/mL vial	Long-Acting
Insulin Glargine-yfgn 100 units/mL pen injector	Long-Acting; Biosimilar Product
Insulin Glargine-yfgn 100 units/mL vial	Long-Acting; Biosimilar Product
NovoLog Mix 70-30 FlexPen 100 units/mL pen injector	Pre-Mixed Insulin Combination
NovoLog Mix 70-30 100 units/mL vial	Pre-Mixed Insulin Combination
Novolin 70-30 FlexPen 100 units/mL pen injector	Pre-Mixed Insulin Combination
Novolin 70-30 100 units/mL vial	Pre-Mixed Insulin Combination
Soliqua 100 units-33 mcg/mL pen injector	Insulin/GLP-1 Combination

Note: *Coverage and formulary placement may vary by plan and year. Always verify plan-specific information using the Formulary Search Tool and other plan materials. Insulin products can be found under the Endocrine/Diabetes therapeutic class and Diabetes Therapy subclass in the Formulary Search Tool (Drug List).*

Refer to the Evidence of Coverage for plan details.
