ROOM, BOARD, AND ANESTHESIA
FOR VENDOR APPROVED SERVICES: HS-329

APPLICATION STATEMENT

The application of the Clinical Coverage Guideline is subject to the benefit determinations set forth by the Centers for Medicare and Medicaid Services (CMS) National and Local Coverage Determinations and state-specific Medicaid mandates, if any.

DISCLAIMER

The Clinical Coverage Guideline (CCG) is intended to supplement certain standard WellCare benefit plans and aid in administering benefits. Federal and state law, contract language, etc. take precedence over the CCG (e.g., Centers for Medicare and Medicaid Services [CMS] National Coverage Determinations [NCDs], Local Coverage Determinations [LCDs] or other published documents). The terms of a member's particular Benefit Plan, Evidence of Coverage, Certificate of Coverage, etc., may differ significantly from this Coverage Position. For example, a member's benefit plan may contain specific exclusions related to the topic addressed in this CCG. Additionally, CCGs relate exclusively to the administration of health benefit plans and are NOT recommendations for treatment, nor should they be used as treatment guidelines. Providers are responsible for the treatment and recommendations provided to the member. The application of the CCG is subject to the benefit determinations set forth by the Centers for Medicare and Medicaid Services (CMS) National and Local Coverage Determinations and state-specific Medicaid mandates, if any. All links are current at time of approval by the Medical Policy Committee (MPC) and are subject to change prior to the annual review date. Lines of business (LOB) are subject to change without notice; current LOBs can be found at www.wellcare.com. All guidelines can be found at this site as well but selecting the Provider tab, then “Tools” and “Clinical Guidelines”.

BACKGROUND

NJ Family Care beneficiaries may have a combination of developmental, neurological and medical conditions necessitating the need for certain dental services to be provided in an operating room as an outpatient hospital service. These beneficiaries are not assigned a Special Program Code to identify those having developmental disabilities or traumatic brain injuries. Operating room charges for surgically-conducted dental procedures are not typically covered by hospital reimbursement jeopardizing the ability of these beneficiaries to receive needed dental treatment.

New Jersey legislation was adopted (N.J.S.A. § 17:48-6u) requiring that hospital service contracts entered into by a medical benefit plan approved by the State of New Jersey provide benefits to any covered persons who are severely disabled; a child age

five or under for expenses incurred for general anesthesia and hospitalization for dental services; a covered medical condition requiring hospitalization; or, general anesthesia for dental services rendered by a dentist regardless of where the dental services are provided. These services are already covered by the NJ FamilyCare Program in both FFS and managed care.

POSITION STATEMENT

Applicable To:
- Medicaid – Florida, Georgia, Illinois, Kentucky, Missouri, Nebraska (vision only), New Jersey, New York, South Carolina (vision only)
- Medicare – Arkansas, Connecticut, Florida, Georgia, Hawaii, Illinois, Kentucky, Louisiana, Mississippi, Missouri, New Jersey, New York, Nebraska, South Carolina, Tennessee, Texas

NOTE: The following markets do not have a delegated vendor for the noted services: Hawaii (Medicaid-Community Care Services – Dental and Vision), Nebraska (Medicaid – Dental), and South Carolina (Medicaid – Dental).

Coverage

Room, board, and anesthesia for vendor approved services is considered medically necessary when ALL of the following apply:

1. Member is having procedure in an ambulatory surgery center or outpatient hospital; **AND**
2. Member has documentation to support room, board and anesthesia request including clinical presentation that prevents the member from receiving dental treatment in an office or clinic setting and/or reason(s) why other levels of sedation are not an option; **AND**
3. Procedure has been approved by a WellCare delegated vendor.

CODING

**Hospital Reimbursement Requirements.** The hospital must report Revenue Code OP 360 or OP 512 on the hospital claim for operating room charges related to the dental visit. The outpatient hospital claim for the operating room visit must report an ICD-10-CM diagnosis code(s) listed on the attachment of this Newsletter identifying the medical exception diagnosis associated with the need for the dental visit to an operating room for claims with service dates on or after October 1, 2015.

**Error Code 1310, “Missing/Inv Dental Clinic Rev Cde”** shall deny outpatient hospital claims for dental visits to an operating room that report an inappropriate Revenue Code and/or ICD-9 or ICD-10 diagnosis code based on the service date.

**ICD-10 CM Diagnosis Codes**
The ICD-10-CM diagnosis codes listed below meet the medical exception requirement for an operating room visit by a dentist to provide dental services. The medical exception diagnosis codes must be reported on outpatient hospital claims with service dates on or after October 1, 2015.
