WELLCARE'S PRIOR AUTHORIZATION LIST

Prior Authorization (PA) Requirements

This WellCare prior authorization list supersedes any lists that have been distributed to our providers. Please ensure that older lists are replaced with this updated version. Authorization changes are denoted by a **℞** symbol for easy identification. Requirements that have been edited for *clarification only* are denoted with a **Ⓢ** symbol.

WellCare supports the concept of the Primary Care Physician (PCP) as the “medical home” for its members. PCPs may refer members to network specialists when services will be rendered in an office, clinic or free-standing facility. **A written or faxed script to the specialist is required.** The reason for the referral and the name of the specialist must be documented in the medical record. **The specialist must document receipt of the request for a consultation and the reason for the referral in the medical record.** No communication with WellCare is necessary.

℞ For members enrolled in a PPO plan, authorization is not required for nonparticipating providers and facilities, however, services on the medical necessity/authorization required list below must be covered services within the benefit plan and considered medically necessary for the plan to pay a portion of the out-of-network claim.

For members enrolled in a non-PPO plan, all services rendered by nonparticipating providers and facilities require authorization, including requests to use the member’s Point-of-Service benefits. Specialists must coordinate all services with the member’s PCP. It is the responsibility of the provider rendering care to verify that the authorization request has been approved before services are rendered.

Urgent Authorization Requests and Admission Notifications: Call 1-855-538-0454 and follow the prompts.

- Notification is required for Inpatient Hospital admissions **by the next business day** after admission (except normal maternity delivery admissions). Telephone authorizations must be followed by a fax submission of clinical information.
- Outpatient authorizations for urgent and time-sensitive services may be submitted by phone when warranted by the member’s condition. Please include **CPT and ICD-10 codes** with your authorization request. Standard authorization requests may be submitted [online](#) or via fax to the numbers listed on the associated forms located [here](#).
- [Web submissions](#) are faster, and if the procedure requested meets clinical criteria, the Web provides an approval that can be printed for easy reference.
- Obtaining authorization does not guarantee payment, but rather only confirms whether a service meets WellCare’s determination criteria at the time of the request. WellCare retains the right to review benefit limitations and exclusions, beneficiary eligibility on the date of service, the medical necessity of services, and correct coding and billing practices.
- Lab codes performed in a lab setting should be directed to Quest. Testing must be consistent with CLIA guidelines.
- WellCare Health Plan may delegate Prior Authorization to the contracted MSO, IPA, or Medical Groups who then determine prior authorization requirements for their assigned members.
 - IPAs must make every attempt to authorize services that are the financial responsibility of WellCare Health Plan to a provider within WellCare Health Plan’s contracted network. If a member requires out-of-network services because WellCare Health Plan is not contracted with a provider of like specialty, the IPA is required to notify WellCare Health Plan’s Utilization Management Department prior to issuing an authorization. The Utilization Management Department will discuss the case with the WellCare Health Plan Contracting Department and notify the IPA accordingly such that an authorization may be issued. For services that are the financial responsibility of the IPA, the IPA is required to follow its organization’s policy in reference to authorization of out-of-network providers.
 - Emergency admissions that are outside the IPA/Group’s service area are monitored by the WellCare Health Plan Utilization Management Department. WellCare Health Plan’s Medical Management Department will be responsible for issuing an authorization, performing concurrent review, and working with the IPA to coordinate transfer of the member to an in-network facility once the member has been stabilized.
 - For specific authorization requirements, please follow your group’s direction.
