

Notice of New Inbound Edits for Georgia Medicaid Claims and Encounters

In accordance with Georgia Medicaid guidance and your contract with WellCare, we are providing you 30 days' notice. Effective 11/1/2018, WellCare will implement new front-end edits to align with the new requirements of the Georgia Department of Community Health.

Providers of Georgia Medicaid patients must be registered with the state Medicaid Program using their National Provider Identifier (NPI), Taxonomy Code and Billing address with the **Georgia** Medicaid Management Information System (GAMMIS).

You will receive a claim rejection error if:

- The Billing Provider NPI is not found on the GA State Roster.
- Rendering Provider NPI not found on the GA State Roster.

Claim Rejection Descriptions:	
Reject Code	Rejection Description
440	Billing Provider NPI not found on the GA State Roster. Please compare the NPI submitted to the information registered with GAMMIS. https://www.mmis.georgia.gov/portal/PubAccess.Enrollment/tabId/63/Default.aspx
441	Rendering Provider NPI not found on the GA State Roster. Please compare the NPI submitted to the information registered with GAMMIS. https://www.mmis.georgia.gov/portal/PubAccess.Enrollment/tabId/63/Default.aspx

- Billing NPI, Taxonomy, Billing address (ZIP-5 or ZIP-9, whichever matches the roster)
- Rendering NPI, Taxonomy (if Rendering is different from billing provider)
- Atypical providers are excluded but must be previously added on the WellCare atypical provider list.
